Course Objective:
This course is intended to provide a base of knowledge and to encourage the development of critical thinking which are necessary for an understanding of the American political system. It is also designed to provide a basis for further studies of political theories and systems.

Requirements/Grading:
IMPORTANT:. Attendance in class for lectures and discussions is mandatory.
Material from the lectures, as well as readings from the text and other sources, will be included on the exams. You are solely responsible for any information presented in class pertaining to exams, schedule and syllabus changes, and assignments. It is imperative that you remain current in your reading assignments in order to maximize the value of the lectures and class discussions.

There will be three "section" exams that will cover material from the corresponding section of the text and an optional cumulative final exam. Your final grade will be calculated using the three highest exam scores. Each exam will constitute 30% of your grade and the remaining 10% will be based on written assignment[s] to be announced in class. Late submission of assignments will result in a substantial penalty. There will be NO early/late/ makeup exams. I do NOT use the +/- grading scale.
