2. The primary purpose of this meeting is for committee members to discern the student’s areas of expertise. This will facilitate the construction of appropriate questions for the Field Area exam.
3. After committee members determine that they have enough information from the student, the student will be dismissed. Committee members then discuss and broadly coordinate the content of the three questions to be drafted, one from each member of the committee.
4. Afterwards, each committee member submits one question to the Chair, who compiles the questions and sends to the Graduate Program Assistant in time for the start of the exam.
5. Field Exams are normally scheduled for Tuesday (Core) and Thursday (Area) the last week of May.
