

GIS FOR BIOLOGISTS AND ECOLOGISTS

WE LOOK AT THE WORLD DIFFERENTLY

FALL 2021

**Mondays and Wednesdays
4:30pm to 5:45pm, Bio305**

**Split level course codes:
PCB4462 (undergraduate)
PCB5469 (graduate)**

- Learn skills necessary to answer biological questions using dynamic datasets over large geographic ranges
- Prepare maps to identify vulnerable habitats, ecological hotspots, and more
- GIS is a highly marketable skill for entering natural sciences workforce
