Annual Evaluation Standards and Procedures

Tenure-Earning Faculty

Available for First Use 2018-19

Faculty members are responsible for reporting their accomplishments in teaching, research/creative activity, and service. The NSC Director will evaluate the reported work in each category and will also provide an overall evaluation. Faculty are required to earn a minimum rating of Satisfactory in each area of assignment in order to earn an overall rating of Above Satisfactory or Outstanding. For this assignment level, research and teaching shall be weighted for purposes of the evaluation to reflect relative allocation of time to each category. Service expectations are consistent with other faculty assignments. This may be described as a 35-45-20 model. The specific procedure for calculating the overall evaluation is detailed below.*

If a faculty member achieves an overall rating of conditional for more than one year, the faculty member shall receive an overall rating of Unsatisfactory.

* For purposes of calculating overall evaluations in a manner that distinguishes among the levels (e.g., Satisfactory, Above Satisfactory and Outstanding), individual evaluations of teaching and service are assigned the following values: Outstanding = 4, Above Satisfactory = 3, Satisfactory = 2, Conditional = 1, Unsatisfactory = 0. The overall evaluation is assigned according to the table below. The categories of evaluation are weighted as follows: teaching 35%, research 45%, service 20%. The overall evaluation is assigned according to the table below.

<u>Weighted Total</u>	<u>Overall Evaluation</u>
3.5 and above	Outstanding
2.5 – 3.49	Above Satisfactory
1.5 – 2.49	Satisfactory
Below 1.5	Conditional
Below 1.5 for 2 or more years	Unsatisfactory

Example: Based on the weighted formula for evaluation, a faculty member who is Outstanding in Teaching, Above Satisfactory in Research, and Outstanding in Service will earn an overall evaluation of Outstanding $[(.35*4) + (.45*3) + (.2*4) = 3.65]$.

I. OVERALL

SUMMARY OF TEACHING, RESEARCH AND SERVICE ACCOMPLISHMENTS AND FUTURE GOALS

At the end of each evaluation period, faculty members will summarize their teaching, research, and service accomplishments during the evaluation period and report the goals they seek to achieve in each area during the upcoming evaluation period. The goals are intended to be meaningful, aligned with program and college goals, and relatively few in number; typically no more than three. To that end, all faculty are to complete the following summaries:

1. Provide a list identifying teaching, research and service accomplishments during the evaluation period (please be succinct and limit your list to no more than 250 words).
2. Provide a list identifying teaching, research and service goals for the next evaluation period (please be succinct and limit your list to no more than 250 words).

II. TEACHING

LEVEL I: CONDITIONAL/UNSATISFACTORY

The first year that a faculty member fails to fulfill the requirements 1-14 for Satisfactory, the performance will be marked conditional. A faculty member who does not fulfill one or more of the criteria (1-14) may provide a brief description of the extenuating circumstances that contributed to the lapse. Faculty receiving Conditional evaluations are encouraged to meet with their program coordinator to discuss deficiencies and strategies for improvement. In the second and subsequent years of not achieving all requirements for Satisfactory, the rating will be Unsatisfactory.

LEVEL II: SATISFACTORY

In order to achieve a rating of Satisfactory, the faculty member must satisfy ALL of the following criteria for all courses taught:

Preparation for Teaching

1. Submit book orders on time as required by state legislation.
2. Provide and follow a syllabus that follows the current university guidelines.
3. Provide a copy of the syllabus for each class to the School office.
4. Remain current in appropriate area of expertise.

Course Delivery

5. Meet classes on a regular basis as scheduled.
6. Be available at scheduled office hours.
7. Provide content that aligns with learning objectives.
8. Provide effective and accurate advisement when requested.
9. Reply in a timely fashion to student inquiries.
10. Submit grades on time.
11. Provide timely evaluative feedback on student assignments.

12. Unless previously approved by the Director or teaching an online course (M or W designation), hold a final exam (or appropriate final project/exercise) during the scheduled final exam period.

13. Evaluate student performance with a level of rigor that is appropriate to the curriculum.

A faculty member who does not fulfill one or more of the above criteria may provide a description of the extenuating circumstances that contributed to the lapse.

Course Evaluation

14. Fulfill ONE of the following two options:

A) Demonstrate satisfactory performance in the classroom as evidenced by Student Perception of Instruction (SPI) Reports ratings of at least 50% in the “Good,” “Very Good,” and “Excellent” categories collectively (accumulated across all courses taught) in the category “Overall Assessment of Instruction.”

B) Submit a summary that contextualizes SPI scores and describes a strategy for improving future SPI evaluations.

Evaluation

1. Receive student evaluations (SPIs) of overall teaching effectiveness that are consistent with the COS norms.

LEVEL IV: OUTSTANDING

Faculty members seeking an Outstanding rating in teaching shall present appropriate evidence to the Director (i.e., a brief description of the activity comprising no more than two sentences wherever appropriate). It is presumed that the person applying will have clearly exceeded the requirements for Levels I and II. III. RESEARCH AND CREATIVE ACTIVITIES

Overview

Teaching loads for research faculty in the Nicholson School of Communication may vary for a variety of reasons including different types of administrative and *ad hoc* assignments. The NSC Director is responsible for assigning loads.

The following identifies kinds of research activities and creative activities that may be declared in the annual evaluation. Faculty also should note that because some faculty engage in research activity *and* creative activity, their reports may include both. Research or creative activities may involve forms of recognition that demonstrate the quality or importance of the work. "Other" categories are included to allow faculty to make a case for the placement of their research and creative activity.

Creative Activities: Some faculty within the NSC may have annual assignments for scholarly and creative activities. When faculty engage in such creative activities, the expectations for national prominence of the work and reputation, impact on the (professional, artistic or academic) field and high expectations for quality, consistent with the aspirations of the university and school of communication, are the same as for research scholarship. Such creative activities shall be evaluated consistent with normative evaluation standards typically used for the evaluation of artistic works and professional productions. Such measures of quality should be consistent with and appropriate to the nature of the creative outcomes produced. These evaluation standards provide general parameters for indicators of quality for creative activities. Because the range of

such activities is quite broad this general framework is provided as a guideline for evaluation of faculty work.

For purposes of annual evaluations in the NSC, creative activity typically will be assessed by examining (1) the rigor of juried review or referee process and (2) the visibility/significance of the venue in which the creative activity is presented (e.g., the reputation of the venue; national or international venue; regional, state, or local, etc.). More competitive review processes and more significant, visible venues will be assessed as higher level achievements. In addition, local, regional and national external recognition or prominent external awards for creative activity should be reported as further evidence of the significance and impact of the creative work (the more national and prominent the recognition the greater the presumption of higher quality).

For faculty whose research/creative activity is solely focused on the production of creative works, the level of achievement (Satisfactory, Above Satisfactory and Outstanding) for the category will be based on evidence and documentation supplied by the faculty member. The documentation should address 1) the level of productivity and 2) the quality of the creative/scholarly/professional products in a manner that sufficiently demonstrates an equivalence of achievement for the evaluation categories used for research activity. The Director should determine whether the documentation is sufficient for an equivalence judgment and should provide an annual evaluation rating for this category consistent with those calculations.

Due to the unique and varied nature of creative activities, faculty are advised to consult with the Director prior to engaging in the activity, to verify its suitability for declaration of comparable equivalency using the general parameters for evaluation of quality and productivity. Given that it is not possible to anticipate all of the types of creative activities and research projects faculty may engage in, each level of performance includes a category of "Other" so that faculty may provide activities and provide documentation that the activity identified is commensurate with the kinds of activities listed within that category (e.g., evidence of impact, peer review process, competitive selection.)

Faculty are expected to provide brief documentation (no more than two sentences) wherever appropriate.

LEVEL I: CONDITIONAL/UNSATISFACTORY

The first year that a faculty member fails to fulfill the requirements for Satisfactory, the performance will be marked Conditional. Faculty receiving Conditional evaluations are encouraged to meet with the director to discuss deficiencies and strategies for improvement. In the second and subsequent years of not achieving all requirements for Satisfactory, the rating will be Unsatisfactory.

LEVEL II: SATISFACTORY

In order to achieve a rating of Satisfactory, the faculty member must satisfy item 1 *AND* one from 2-8.

20. Publish an edited book.
21. Receive funding on an external research grant or contract with indirect funding for the NSC.
22. Produce/Direct ONE long-form juried creative work that is exhibited at a conference or festival.

Publication of a scholarly book shall result in the awarding of an Outstanding for two consecutive evaluation periods (unless credit was received for the book contract in a previous evaluation period).

Other: Perform some other noteworthy research/creative accomplishment that is adequately represented in this evaluation such as receives a state/regional, national, or international award or recognition for a scholarly or creative work. (Note: Activity must be specified and faculty must provide satisfactory documentation.)

NOTE: Articles will be counted when accepted or published (but not both) and books and book chapters when published. Grants or contracts will be counted after receipt of notification of award, or when received (but not both).

If the research article is a SoTL article, the faculty member needs to document that the article is research-based rather than experiential, descriptive, or anecdotal. Only research-based SoTL articles count in the research category.

IV. SERVICE

Regardless of their teaching loads, all faculty are expected to engage in service activities to the School, College, University, State, and Profession or Community.

In addition to the activities listed under each category, faculty have an opportunity to record “Other Service” which is not included among any of the categories below. In assessing the items reported as “Other Service,” the NSC Director will consider variables such as “relevance to the faculty’s area of expertise” and “relevance to the NSC or university mission” in judging the merit of the activity.

Faculty are expected to provide a brief description (no more than two sentences) of the selected activities in the space provided.
