Note the 24 hour clock in used in this syllabus.

**Course Description:** PR: Appropriate score on the UCF Math Placement exam, or MAC 1105C with a “C” (2.0) or better, or C.I. Inequalities. Angles, the circle, arc length, identities, trigonometric functions, inverse functions, applications to simple harmonic motion, functions of angles, complete development of triangle solving. Prepares students for upper level mathematics. The "NC" grading policy applies to this course.

**Course Goals:** This course is designed to familiarize the student with graphs and their functions, trigonometric functions, analytic trigonometry, and applications of trigonometric functions, polar coordinates, and vectors. Upon successful completion of the course, the student will be able to apply various problem solving strategies to find solutions to a variety of real-life problems. Furthermore, the student will have acquired the necessary trigonometry background to continue pursuing higher levels of mathematics.

**Please Note:** In a mathematics course, understanding is established not just by familiarity with concepts, but also by being able to work math problems associated with the concepts. Therefore, do not assume you know something unless you can work the problems. This course requires you to master the subjects and solve the problems without any learning aids. **No formulas will be provided during exams. You are not to use learning aids of any type including note cards with formulas or facts.**

**Email Policy:** The best way to contact me outside of class or office hours is by email. I will do my best to respond to your message in a timely fashion. If you have any mathematical questions
outside of the MALL, the math success center, and my office hours, then you might try Pearson Tutor Services (paid service).

**Prerequisites** of a course are what you are assumed to know before you take the course. Understanding prerequisite knowledge is the responsibility of the student.

**Required Materials:**

2. **TI-30XA calculator.** *The TI-30XA will be provided on tests only.* Absolutely no graphing calculator or programmable calculator should be used in class. It is best if you buy a TI-30XA and practice with it. Proctors are not allowed to answer questions about calculator use during the test.

3. **Regular notebook** (spiral-bound or binder) to keep neat and organized notes.

4. **UCF ID** is required for admission to all tests in this course.

**MyLab Math (MLM) Access Code:** To purchase the MLM access code for $69.99, you must go to the “Course Materials” link in your MAC1114 Webcourse, choose “opt-in”, and then click ‘CONFIRM’. **You may do this through August 25, 2023, 23:59,** and the fee will be charged to your student account. This deadline was set by UCF and the UCF Bookstore and cannot be extended. If you neglect to do this by August 25, 2023, or you choose “opt-out”, then you will have to go to the UCF campus bookstore and pay $94.00 to continue to access MyLab Math. (Go to the “First Day” desk.) If you don’t do either of these, then you will lose access to MyLab Math. **If you have any questions, please contact the UCF campus bookstore manager.**

We will access MyLab Math through Webcourses using a single sign-on feature. During testing you must close Webcourses or any other window except the MLM test window.

**First Week Required Academic Activity:** As of Fall 2014, all faculty members are required to document students' academic activity at the beginning of each course. In order to document that you began this course, please complete the REQUIRED ACADEMIC ACTIVITY quiz in Webcourses no later than August 25, 2023, 23:59. Failure to do so may result in a delay in the disbursement of your financial aid.

**Friday MALL Session:** There is a scheduled MALL session each Friday. Attendance is taken as you log in and log out through Webcourses. The purpose of the scheduled MALL time is to work on homework and ask questions about the material (20 – 30 minutes), and to take a weekly quiz. You will have the opportunity to take the quiz more than once. Students can earn two grades every non-test Friday, for attending at least 70 minutes and for taking the quiz during their Friday MALL session.

The weekly quizzes are IP locked and must be done during your scheduled Friday MALL time. Weekly quizzes can be taken unlimited number of times during the MALL session and the
highest score will be captured. There is no quiz during test week; instead, the test will be administered during that scheduled MALL period.

**Homework Assignments and Quiz Dates:** Homework Assignments will typically be due on Monday. There will be a quiz during our scheduled MALL period each Friday other than exam days. All assignment due dates will appear in MyLab Math.

**Grading Scale:**

<table>
<thead>
<tr>
<th>Average</th>
<th>Grade</th>
</tr>
</thead>
<tbody>
<tr>
<td>90 – 100%</td>
<td>A</td>
</tr>
<tr>
<td>80 – 89%</td>
<td>B</td>
</tr>
<tr>
<td>70 – 79%</td>
<td>C</td>
</tr>
<tr>
<td>40 – 69% (must take final)</td>
<td>NC**</td>
</tr>
<tr>
<td>Otherwise</td>
<td>F</td>
</tr>
</tbody>
</table>

The official method of contact is Knights email, always include your full name, NID, Math section number (not class meeting time). Grade discussion must be in person or via zoom after showing your UCF ID.

**Students must take the final exam and the final is comprehensive. Please note all tests may be comprehensive because math builds on prior concepts.**

**This course is an NC course. Please see [http://fyae.sdes.ucf.edu/faq](http://fyae.sdes.ucf.edu/faq) for complete details on NC policy.**

**Academic Honesty:** All students are required to abide by the Academic Honesty Guidelines. We must develop, sustain and protect an academic environment of honesty, trust, and respect. Please read and understand all policies listed in [http://creed.ucf.edu/points](http://creed.ucf.edu/points), [http://www.goldenrule.sdes.ucf.edu](http://www.goldenrule.sdes.ucf.edu). The Z Designation will be used in cases of academic dishonesty as decided by the UCF Office of Student Conduct.

**Grading Scale:** Your final grade will be no less that the following:

- Homework: 10% (at least the lowest is dropped)
- Quiz: 10% (at least the lowest is dropped)
- Test 1-3: 40% (for best 2 lowest score is dropped)
- Final: 40%

The student’s grade average will be calculated using the above. You do not need to contact your instructor with your choice of which assignments are to be dropped.
Test Dates:

<table>
<thead>
<tr>
<th>Test</th>
<th>Date</th>
<th>Sections</th>
</tr>
</thead>
<tbody>
<tr>
<td>Test 1*</td>
<td>September 15</td>
<td>5.1 – 5.6</td>

<tr>
<td>Test 2*</td>
<td>October 13</td>
<td>5.7, 5.8, 6.1 – 6.6</td>
</tr>
<tr>
<td>Test 3*</td>
<td>November 17</td>
<td>7.1, 7.2, 7.3, 7.5, 8.1, and 8.2</td>
</tr>
<tr>
<td>Final Exam*</td>
<td></td>
<td>Final exam registration time TBD</td>
</tr>
</tbody>
</table>

*No student should make travel plans prior to or on test days.

Make-up Policy:

Should you miss an exam because of your participation in official University-sponsored activities (e.g., intercollegiate athletics) please provide the instructor your Program Verification Form. For religious observances (see restrictions), legal obligations (such as jury duty), or military obligations, you may make up the exam. However, you must obtain permission from your instructor ahead of time and provide valid and complete documentation in advance (e.g. UCF Program Verification Form, copy of military orders, jury notice). Otherwise, a grade of zero for the missed exam will be factored into your course average. Make-ups must be made before the missed assignment due date. It is at your professor’s discretion to determine whether the reason why you missed an exam grants a make-up exam. Personal travel plans or illness are not valid reasons for taking tests at a different date/time than scheduled.

Alternative to make-ups to handle any other circumstances such as illness, serious family emergencies, personal travel plans, etc., there will be a fixed number of drops given to all students enrolled in this course. There will be at least two drops in class activities, homework assignments and MALL activities. If you miss more than one exam from Tests 1, 2 and 3, then your final exam will be 75% of your course grade. No make-up will be given, other than ‘incomplete’, if the student misses the final exam due to a documented emergency such as hospital admission or death in the immediate family. Students who miss the final exam under such circumstances should contact the instructor immediately and no later than April 27, 2020 to get consideration.

Please note that a written note from a doctor is NOT considered an excused absence.

TEST POLICIES & PROCEDURES:

The tests will be in MyLab Math which you will access through Webcourses. Tests will be on Friday during our scheduled MALL time. Please follow this check list:

- Have an active MyLab Math account. You should check your account before you go to the test.
- Memorize your NID and password to log into a computer and Webcourses.
• Make sure that you arrive early as the test will start on time. You will lose elapsed time if you are late or don’t know login information and need to retrieve it.
• If you miss any of the first three tests, it will be your dropped test.
• You must have a UCF ID and put it on the desk, on the left side of the keyboard to make it easy for the staff to check.
• 8 ½” x 11” bluebook/greenbook with nothing written on it (see UCF bookstore or vending machine outside MALL or Student Union front desk).
• $.50 (= two quarters) if you are going to use a locker (read instructions before you use a locker, so you don't lose the money before it locks). No personal belongings are allowed in the MALL during testing.
• Writing utensil(s).
• NO cellphones, NO skateboards, NO calculators (you'll be loaned a TI-30XA), NO smart watches. (If you don't want to put them in a locker, please don't bring them with you and don't jeopardize your grade.)
• During Tests 1, 2, 3, or the final if your phone makes noise, is observed to be on, or you access it for any reason while you are in the testing room you will be given a zero on that test and possibly will be sent to the Office of Student Conduct.
• At all times, you must abide by Mathematics Assistance and Learning Lab (MALL) Policies and Procedures; please visit http://mall.cos.ucf.edu/ as it is the student’s responsibility to read, understand and follow policies.
• The use of any algebra solving app, algebra solving calculator or algebra solving software is cheating and the student will be sent to student conduct for cheating.
• After taking the test and during the remaining portion of that test week the dissemination of the contents of the test by any means is unauthorized assistance and is a violation of the UCF Code and the student will be sent to Student Conduct.
• No formulas will be provided.
• No learning aids of any type including note cards with formulas or facts will be allowed.

Learning Objectives:

After the completion of this course, without learning aids of any type including formulas or fact sheets, students will be able to

1. Describe the angle measurements by using radians and degrees.
2. Evaluate the exact values of the six trigonometric functions or estimate them for the given angles with or without a scientific calculator.
3. Describe and apply the properties of the six trigonometric functions and their transformations to solve the application problems.
4. Describe the properties of the six inverse trigonometric functions.
5. Evaluate the six inverse trigonometric functions.
6. Solve trigonometric equations and their application problems in a rectangular coordinate system or in a polar coordinate system.
Test 1 will assess objectives 1, 2 and 3. Test 2 will assess objectives 3, 4 and 5. Test 3 will assess objectives 3 and 6. The final exam will assess objectives 1, 2, 3, 4, 5 and 6.

Further Details:

Chapter 5: Trigonometric Functions

5.1 Angles and Their Measures
Convert between Decimals and Degrees, Minutes, Seconds Measures for Angles. Find the Arc Length of a Circle. Convert from Degrees to Radians and from Radian to Degrees.

5.2 Right Triangle Trigonometry
Find the Values of Trigonometric Functions of Acute Angles. Use the Fundamental Identities. Find the Values of the Remaining Trigonometric Functions, Given the Value of One of Them. Use the Complementary Angle Theorem.

5.3 Computing the Values of Trigonometric Functions of Acute Angles
Find the Exact Values of the Trigonometric Functions of Common Angles. Use a Calculator to Approximate the Values of the Trigonometric Functions of Acute Angles. Model and Solve Applied Problem Involving Right Triangles.

5.4 Trigonometric Functions of Any Angle
Find the Exact Values of the Trigonometric Functions for Any Angle. Use Coterminal Angles to Find the Exact Value of a Trigonometric Function. Determine the Signs of the Trigonometric Functions of an Angle in a Given Quadrant. Find the Reference Angle of an Angle. Use a Reference Angle to Find the Exact Value of a Trigonometric Function. Find the Exact Values of Trigonometric Functions of an Angle, Given Information about the Functions.

5.5 Unit Circle Approach: Properties of the Trigonometric Functions
Find the Exact Values of the Trigonometric Functions Using the Unit Circle. Know the Domain and Range of the Trigonometric Functions. Use the Periodic Properties to Find the Exact Values of the Trigonometric Functions. Use Even-Odd Properties to Find the Exact Values of the Trigonometric Functions.

5.6 Graphs of the Sine and Cosine Functions
Graph Functions of the Form $y=A \sin(\omega x)+B$ Using Transformations. Graph Functions of the Form $y=A \cos(\omega x)+B$ Using Transformations. Determine the Amplitude and Period of Sinusoidal Functions. Graph Sinusoidal Functions Using Key Points. Find an Equation for a Sinusoidal Graph.

5.7 Graphs of the Tangent, Cotangent, Cosecant, and Secant Functions
Graph Functions of the Form \( y = A \tan(\omega x) + B \) and \( y = A \cot(\omega x) + B \). Graph Functions of the Form \( y = A \csc(\omega x) + B \) and \( y = A \sec(\omega x) + B \).

5.8 Phase Shift
Graph Sinusoidal Functions of the Form \( y = A \sin(\omega x - \phi) + B \).

Chapter 6: Analytical Trigonometry

6.1 The Inverse Sine, Cosine, and Tangent Functions

6.2 The Inverse Trigonometric Functions (Continued)
Find the Exact Value of Expressions Involving the Inverse Sine, Cosine, and Tangent Functions. Define the Inverse Secant, Cosecant, and Cotangent Functions. Use a Calculator to Evaluate , , and . Write a Trigonometric Expression as an Algebraic Expression.

6.3 Trigonometric Equations

6.4 Trigonometric Identities
Use Algebra to Simplify Trigonometric Expressions. Establish Identities.

6.5 Sum and Difference Formulas
Use Sum and Difference Formulas to Find Exact Values. Use Sum and Difference Formulas to Establish Identities.

6.6 Double-angle and Half-angle Formulas
Use Double-angle Formulas to Find Exact Values. Use Double-angle Formulas to Establish Identities. Use Half-angle Formulas to Find Exact Values.

6.7 (Not Tested) Product-to-Sum and Sum-to-Product Formulas
Express Products as Sums. Express Sums as Products.

Chapter 7: Applications of Trigonometric Functions
7.1 Applications Involving Right Triangles
Solve Right Triangles. Solve Applied Problems.

7.2 The Law of Sines
Solve SAA or ASA Triangles. Solve SSA Triangles. Solve Applied Problems.

7.3 The Law of Cosines

7.4 Simple Harmonic Motion
Build a Model for an Object in Simple Harmonic Motion. Analyze Simple Harmonic Motion.

Chapter 8: Polar Coordinates; Vectors

8.1 Polar Coordinates
Plot Points Using Polar Coordinates. Convert from Polar Coordinates to Rectangular Coordinates. Convert from Rectangular Coordinates to Polar Coordinates. Transform Equations between Polar and Rectangular Form.

8.2 Polar Equations and Graphs
Identify and Graph Polar Equations by Converting to Rectangular Equations. Test Polar Equations for Symmetry. Graph Polar Equations by Plotting Points.

8.4 Vectors

9.7 Plane Curves and Parametric Equations

**Holidays (UCF closed):**

Labor day September 4th
Veteran’s day  November 10\textsuperscript{th}

Thanksgiving  November 22-24

Mall open hours:

Please see the MALL website of hours of operation

**Test Dates:**

<table>

Review

Final Exam

Final Exam range includes all sections covered throughout the semester except 6.7. April 21-24 and 27

Religious Policy: It is the practice of the University of Central Florida to reasonably accommodate the religious observances, practices, and beliefs of individuals in regard to admissions, class attendance, and the scheduling of examinations and work assignments. A student who desires to observe a religious holy day of his or her religious faith must notify his/her instructor in writing at the beginning of the term (no later than the 10th business day of the term) to be excused from classes to observe the religious holy day. Please note that documentation will be requested. Please see the below link for complete details: https://regulations.ucf.edu/chapter5/documents/5.020ReligiousObservancesFINALJan19.pdf

Course Accessibility Statement: The University of Central Florida is committed to providing access and inclusion for all persons with disabilities. Students with disabilities who need disability-related access in this course should contact the professor as soon as possible. Students should also connect with Student Accessibility Services (SAS) http://sas.sdes.ucf.edu/ (Ferrell Commons 185, sas@ucf.edu, phone: 407-823-2371). Through Student Accessibility Services, a Course Accessibility Letter may be created and sent to professors, which informs faculty of potential access and accommodations that might be reasonable. Determining reasonable access and accommodations requires consideration of the course design, course learning objectives and the individual academic and course barriers experienced by the student.
Campus Safety Statement: Emergencies on campus are rare, but if one should arise during class, everyone needs to work together. Students should be aware of their surroundings and familiar with some basic safety and security concepts. In case of an emergency, dial 911 for assistance. Every UCF classroom contains an emergency procedure guide posted on a wall near the door. Students should make a note of the guide’s physical location and review the online version at http://emergency.ucf.edu/emergency guide.html Students should know the evacuation routes from each of their classrooms and have a plan for finding safety in case of an emergency. If there is a medical emergency during class, students may need to access a first-aid kit or AED (Automated External Defibrillator). To learn where those are located, see http://www.ehs.ucf.edu/AEDlocations-UCF (click on link from menu on left). To stay informed about emergency situations, students can sign up to receive UCF text alerts by going to my.ucf.edu and logging in. Click on "Student Self Service” located on the left side of the screen in the toolbar, scroll down to the blue “Personal Information” heading on the Student Center screen, click on “UCF Alert”, fill out the information, including e-mail address, cell phone number, and cell phone provider, click “Apply” to save the changes, and then click “OK.” Students with special needs related to emergency situations should speak with their instructors outside of class. To learn about how to manage an active-shooter situation on campus or elsewhere, consider viewing this video (https://youtube/NIKYajEx4pk).

Accessibility Related Accommodations: It is my goal that this class be an accessible and welcoming experience for all students, including those with disabilities that may impact learning in this class. If anyone believes the design of this course poses barriers to effectively participating and/or demonstrating learning in this course, please meet with me (with or without a Student Accessibility Services (SAS) accommodation letter) to discuss reasonable options or adjustments. During our discussion, I may suggest the possibility/necessity of your contacting SAS (Ferrell Commons 185; 407-823-2371; sds@ucf.edu) to talk about academic accommodations. You are welcome to talk to me at any point in the semester about course design concerns, but it is always best if we can talk at least one week prior to the need for any modifications.

Academic Integrity Statement: Students should familiarize themselves with UCF’s Rules of Conduct at http://osc.sdes.ucf.edu/process/roc According to Section 1, “Academic Misconduct,” students are prohibited from engaging in Unauthorized assistance: Using or attempting to use unauthorized materials, information or study aids in any academic exercise unless specifically authorized by the instructor of record. The unauthorized possession of examination or course-related material also constitutes cheating. Communication to another through written, visual, electronic, or oral means: The presentation of material which has not been studied or learned, but rather was obtained through someone else’s efforts and used as part of an examination, course assignment, or project. Commercial Use of Academic Material: Selling of course material to another person, student, and/or uploading course material to a third-party vendor without authorization or without the express written permission of the university and the instructor. Course materials include but are not limited to class notes, Instructor’s PowerPoints, course syllabi, tests, quizzes, labs, instruction sheets, homework, study guides, handouts, etc. Falsifying or misrepresenting the student’s own academic work. Plagiarism: Using or appropriating another’s work without any indication of the source, thereby attempting to convey the impression that such work is the student’s own. Multiple Submissions: Submitting the same academic work
for credit more than once without the express written permission of the instructor. Helping another violate academic behavior standards. For more information about Academic Integrity, students may consult The Center for Academic Integrity, http://www.academicintegrity.org/icai/assets/FVProject.pdf. For more information about plagiarism and misuse of sources, see “Defining and Avoiding Plagiarism: The WPA Statement on Best Practices” http://wpacouncil.org/node/9

Responses to Academic Dishonesty, Plagiarism, or Cheating: Students should also familiarize themselves with the procedures for academic misconduct in UCF’s student handbook, The Golden Rule http://goldenrule.sdes.ucf.edu/docs/goldenrule.pdf. UCF faculty members have a responsibility for students’ education and the value of a UCF degree, and so seek to prevent unethical behavior and when necessary respond to academic misconduct. Penalties can include a failing grade in an assignment or in the course, suspension or expulsion from the university, and/or a “Z Designation” on a student’s official transcript indicating academic dishonesty, where the final grade for this course will be preceded by the letter Z. For more information about the Z Designation, see http://goldenrule.sdes.ucf.edu/zgrade

Deployed Active Duty Military Students: A deployed active duty military student who feels the need for a special accommodation due to that unique status should contact their instructor to discuss the circumstances. Please provide a paper copy of your military orders.

Title IX policy

Title IX prohibits sex discrimination, including sexual misconduct, sexual violence, sexual harassment, and retaliation. If you or someone you know has been harassed or assaulted, you can find resources available to support the victim, including confidential resources and information concerning reporting options at https://letsbeclear.ucf.edu and http://cares.sdes.ucf.edu/.

Disclaimer: Instructor has the right to make some adjustments to syllabus and any adjustment will be announced in class and via email and/or Webcourses announcements.
