

Dear Colleagues,

We look forward to receiving your abstract submissions for the 8th International Conference on Attosecond Science and Technology (ATTO VIII) which will be held July 11-15, 2022 at the University of Central Florida (UCF).

The deadline for abstract submissions to ATTO VIII is **Friday, February 11, 2022**. We encourage you to submit abstracts on your recent results, including work in progress, that align with the topical categories of ATTO VIII. All contributed abstracts submitted before the deadline will be considered by the International Program Committee for inclusion in the program as an oral or poster presentation.

We especially welcome submissions from students, postdoctoral fellows, early-career researchers, members of underrepresented groups in the physical sciences, and from researchers at minority-serving and undergraduate institutions. To promote their participation, we plan to provide financial support for a limited number of applicants from these categories. To be considered for financial support, please complete the application at: <https://forms.gle/L14obd6mN75gCzU57>

We are committed to providing a safe experience for all ATTO participants. We intend to follow the recommendations of the US Centers for Disease Control, the World Health Organization, and UCF regarding COVID-19 safety practices.

*Luca Argenti (co-chair), Michael Chini (co-chair), Nicolas Douguet, Li Fang, Madhab Neupane, and Mihai Vaida*

**UNIVERSITY OF  
CENTRAL FLORIDA**

**We are grateful for the generous support of all our sponsors, including:**

*few-cycle*

*To become a sponsor of ATTO VIII, please visit our website or contact the local organizers.*

### **For more information**

More detailed information about ATTO VIII will be announced on the conference website as it becomes available.
