

## 2/25 Psi Chi General Body Meeting

Jackson Gill: I'm a tall skinny guy, so I wouldn't want to buy pants without trying them on. For Kaplan teachers, they have to score in the 90th percentile or higher to join - so you're getting some of the best training around.

We have member discounts and GRE prep questions directly to your inbox. We also have free stuff. You can get a free GRE practice test too. We also have free online bootcamps and events for learning weekly.

Kaplan has lots of course options such as "live online," "in person," "self-guided," and "1:1 tutoring," and all of these offer flexibility for you regardless of your course-load or whether you're in state.

We also have a GRE channel with videos on GRE-related topics, live classrooms, and interactive questions with GRE teachers. We also have a Qbank with adaptive quizzes. This is really helpful with not wasting time on what you're studying. If your score doesn't improve, we will give you your money back or let you retake a class for free.

If you want to do what I'm doing, you can become a student brand ambassador (which we are very short on).

Student Panel on Research Project:

Matt: Attention and Memory lab is hiring for Summer.

Jackie: I used RA Match and got accepted into a lab I wanted to work with.
