Appendix A

As part of my interest in visual representations of Sociology, I worked from 2016 to 2018 to create a 45-episode video series covering the field of Sociology. The video series is found on the Youtube Channel Crash Course Sociology. **As of April 2019 video episodes have been viewed more than 2.6 million times.** Individual episode views range from 25k to more than 1 million. I anticipate the national and international impact of this work will continue to grow in the coming years.

The video series can be found here: https://www.youtube.com/playlist?list=PL8dPuuaLjXtMJ-AfB_7J1538YKwKZAnGA

I structured the knowledge arc of the series, outlined the topics for each episode, co-authored each script, reviewed the edited each video rough cut, and reviewed and approved the final cut of each episode.

The following is a list of available Crash Course Sociology Episodes.
