The Breastfeeding Project is a 501(c)3 non-profit corporation that provides free breastfeeding education and support materials to expectant mothers. Our primary mechanism to reach mothers is through the Breastfeeding Bags we assemble and distribute to through healthcare providers in Central Florida. We also have national and international reach through our website that contains breastfeeding educational materials (in English and Spanish), personal stories and photo galleries; our public Facebook and Twitter pages that we use to promote educational materials or news/blog articles related to breastfeeding; and our private virtual breastfeeding support group on Facebook.
